DETAILED ACTION

1. This is in response to the applicant's communication filed on March 29, 2004, wherein claims 1-14 are currently pending.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Clough et al (2003/0088445) (hereinafter referred to as Clough) in view of Patullo et al (US 2005/0033613) (hereinafter referred to as Patullo)

Clough discloses a method and system for locating/facilities lodging options stored in a database, including/comprising;

a database, an input, a generating and displaying means (Figure 1);
inputting type of experience associated with a lodging option (Figure 2 (204));
searching a database of lodging options which include the input experience (Figure 2 (206, 208)); and
displaying a list of lodging options retrieved from the search;
selecting a lodging option from the display list (Figure 2);
making a reservation (Figure 2 (214)).

Clough does not disclose displaying additional information regarding the selected option.

Art Unit: 3629

However, Patullo discloses displaying additional information regarding the selected option (Figure 5 View Video of this Resort [0032]).

It would have been obvious to one of ordinary skill in the art to incorporate into the reservation method and system disclosed in Clough the additional information taught in Patullo to aid the user in making a choice.
